

INSTALLATION INSTRUCTIONS

Part Number SU-4506

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Air Filter seals properly.

INSTALLATION

1. Remove the stock air filter.
2. Carefully clean the inside of the air box.
3. Install the K&N Air Filter into the air box base.

NOTE: Gently press on the base mold material of the filter to install into the air box. The welded bracket end will be facing up. (Fig. 1)

4. Line the filter base with the intake opening. (Fig. 2)
5. Put the provided washer on the stock screw.
6. Install the screw through the bracket on the K&N Filter.

NOTE: Slightly push the K&N Air Filter against the intake opening so the screw lines up with the hole in the air box.

7. Tighten the screw. (Fig. 3)
8. Reinstall the air box lid.

Available to Purchase Separately

Drycharger Wrap; SU-4506DK

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
